Located within Cosca Regional Park, Clearwater Nature Center offers a variety of interpretive programs hosted by the facility's Park Naturalists. Environmental education is strongly supported at this facility through interesting exhibits, displays, programs, special events, clubs, trips, and volunteer opportunities. A small indoor pond, live animal exhibits, a lapidary laboratory, and seasonal herb and butterfly gardens are some of the unique components of this facility. Many programs are closely coordinated with the County's public school curriculum, making Clearwater Nature Center a great place for school trips. Walk in on your own, or visit the facility as part of a group to explore live mammals, reptiles, amphibians, and birds of prey (including a bald eagle!) that reside here at the Center.
